

Optimal Mozilla Firefox Settings

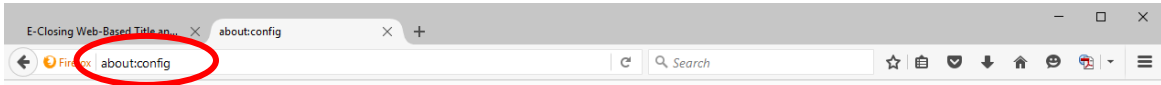

Step 1: Choose the *Tools* tab and scroll down to the *Options* menu.

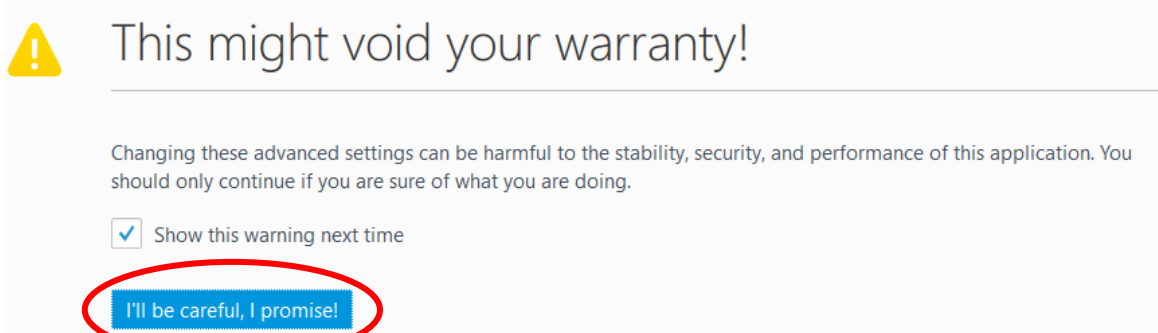

Step 2: Make sure these boxes are checked

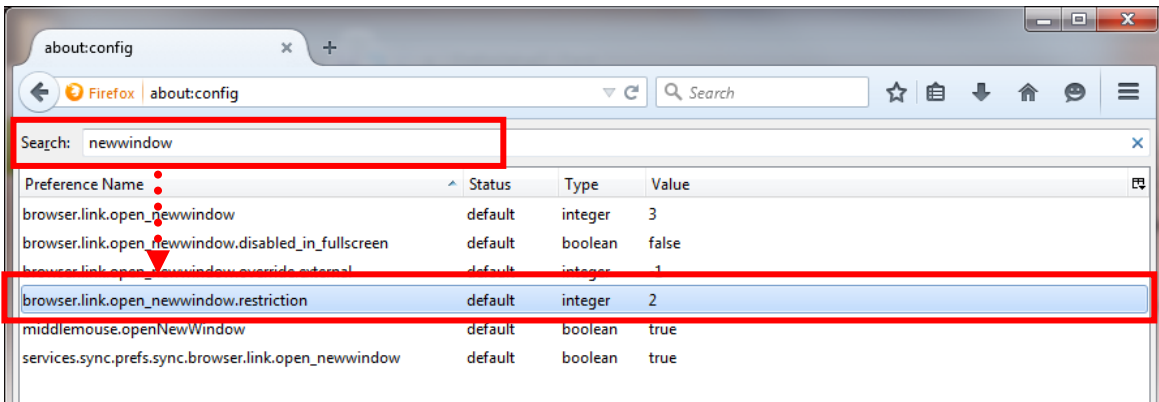

Step 3: In the Web Address field, type *about:config* and hit enter

Step 4: Click *I'll be careful, I promise!* Firefox is a free program and has no warranty

Step 5: In the FILTER field type *newwindow* and press enter. Click on the *browser.link.open_newwindow.restriction*

Step 6. Enter 0 (the number zero) in the box and press enter. The changes will happen immediately.
